

BEAST 1333 > UNF**WITABLE (2016) LYRICS

Beast 1333 - Wake The f Up lyrics**

Verse 1 :

The battle is far from over and you can bet that a** the god is not sober

Even though I know I should be, Apak teach the kids how to live in a positive manner, k** pigs with a skull and bone sacred dagger
I climb Jacob's ladder, I am from the here after

This is just my shadow, an eternal dark reflection, the all, the everything, anything you can imagine, it's already been done, evolution, it's in the supreme, just stardust if you know what I mean

Trust in self ? Self conscious we all walk all alone when the time comes, even if I take you all with me, it will be the most personal and ultimate experience you will ever have to face again

Hook:

Wake the f** up sheeple

Wake the f** up sheeple

Wake the f** up!

Verse 2:

For eons I have existed, soul of a demi god, sage, indigo mystic
A being from a different star system, now here on earth for the sixthundred and sixtyseventh time, subliminal truth trough rhymes, I just go with the times of the agesages, war on wages, control you through the speakers of web pages, many argue which you should be praising, you dumb f**s, listen closely: the name god can not sustain the true meaning, no human can even grasp or manifest the true essence, not even one percent, your brain will explode million times over and over, just know that a part of the most high resides in us all and every living creature throughout the entire universe, this is beyond spitting a verse, first things first, I wish you the best but I must advise you to expect for the worst

Hook:

Wake the f** up sheeple

Wake the f** up sheeple

Wake the f** up!

Verse 3:

I wish you the best but I must advise you to expect for the worst

for the flesh is weak but the flesh can also be very strong, some

master the spirit through the body in this physical dimension

Mental calisthenics telekinetics super human powers and god like

abilities, immortal techniques that Jesus used fuse into one with

the spirit anyone is capable of achieving this believe it or not I

truly don't give a f**, for you filthy worms that dwell in the lower

mental plane, trapped in you own hell, reality is what you make it

value your life you fool for it is a gift that is truly the most sacred

and valuable

Learn how to love another, learn how to love each other, wake the

f** up and recover and stop being an ignorant motherf**er

Motherf**er!

Hook:

Wake the f** up sheeple

Wake the f** up sheeple

Wake the f** up!
